

Change to the Board of Directors

Frank Posnanski will leave the company on September 2nd, 2011

Stuttgart/Germany, August 26, 2011 (A0JELZ) – Digital Identification Solutions AG (DISO), a leading international ID solutions provider, announces a change to its board of directors: At his own request, Frank Posnanski will relinquish his responsibilities as CFO and leave the company with effect from 2nd September 2011.

Frank Posnanski joined DISO AG in early 2010 and has since succeeded, not least through a successful repositioning programme, in significantly raising both revenues and earnings as well as moving the company into the profit-zone. His decision to leave the company has been prompted by his desire to look for a new professional challenge after managing to put DISO AG on a successful track.

‘We are greatly indebted to Frank Posnanski, because he has been successful in making the company profitable by strictly focusing on higher earnings’, comments Sandro Camilleri, the new CEO of DISO AG. ‘Owing to Frank Posnanski’s outstanding performance, DISO AG is in a strong position and poised to continue its successful growth strategy in the future’, adds Camilleri.

‘As a result of our successful work over the last few months, DISO is now in a comfortable situation, and this is the right time for me to look for a change in my professional life and hand over my responsibilities to a successor’, says Frank Posnanski. ‘The company is well-prepared for the future and will continue to be successful’, adds Posnanski.

The Management Board

About Digital Identification Solutions

The Digital Identification Solutions Group is a global provider of advanced identification solutions with a worldwide install base of more than 11,000 systems. In October 2009, the Group introduced to the world market the latest *EDIssecure*® XID Retransfer Printer generations for distinct Business Line segments, as well as a much enhanced Professional Line Portfolio in combination with new Inline Lamination Modules. The Professional Line Portfolio will support multiple new modules in the forthcoming future, as well as the revolutionary LCP 9000 Laser Color Personalization System. The company has its own sales, marketing,

logistic and support centers in Germany, the United Arab Emirates, Singapore, China, the United States and Mexico. Together with its vast network of certified partners, Digital Identification Solutions is in a position to deliver state-of-the-art solutions virtually anywhere in the world. The company combines cutting-edge technology, extensive industry know-how and an impressive array of references in the private and public sector.
