

IDExpert® ToolACT

POWERED BY
vps

DEVELOP YOUR OWN CREDENTIAL-BASED ID SOLUTIONS

- Specifically designed for system integrators and independent software developers
- Software components for the capture of image data, layout design, printing and encoding of ID cards
- Easy integration into existing applications
- Possibility to add functionalities to existing applications or to create new, fully customized applications

IDExpert® ToolACT offers tools for fast and easy custom development for credential-based identity solutions. It disposes several software components for the design, image acquisition, printing and encoding of ID cards. These components are provided in the form of Microsoft ActiveX controls which can be easily integrated into other applications such as access control, time recording, HR management.

With *IDExpert®* ToolACT you can add functionalities or new technologies to your current software application or create new, fully customized applications. Whatever option you decide, *IDExpert®* ToolACT is the right choice to help you with your ID application development needs.

THERE IS ONE FOR EVERYBODY

FEATURES:

- Configuration manager for printing, encoding and image acquisition
- Card Designer with all functions and tools to create custom designed card layouts quickly and easily
- Multiple language support (10 languages)
- Easy installation
- Encoding capabilities for barcodes, magnetic stripes and smart cards (contact and contactless)
- Image, signature, fingerprint and document capture components support any TWAIN, Video for Windows and file image sources as well as direct interfaces to Canon digital cameras and live image cameras
- Automatic and manual image enhancement to ensure continuously high quality images
- Unified user interface for all capture devices
- Optional biometric device support
- Optional security features for government applications
- Support of client / server architecture
- Support for web integration (HTML, Applet)
- Full Unicode™ support

SPECIFICATIONS IDEXPERT® TOOLACT

TECHNICAL REQUIREMENTS

- Microsoft Windows operating systems (Windows 2000, XP, Vista, Windows 7)
- 32-bit technology supporting Microsoft's ActiveX standard
